

PRATHAMESH HANUMANT GHUTE

Zeal College of Engineering & Research, Narhe, Pune - 411041

+91-9370694846 | prathameshghute6@gmail.com

Address: Zeal Chowk, Narhe, Pune, Maharashtra

[LinkedIn](#) | github.com/prathamesh-ghute

Professional Summary

Self-motivated Information Technology student with hands-on full-stack development expertise across React.js, Node.js, Express.js, and MongoDB. Skilled in building production-grade, AI-integrated web applications with secure authentication and REST APIs. Passionate about solving real-world problems through scalable software solutions.

Academic Qualifications

Bachelor of Technology in Information Technology

Zeal College of Engineering and Research, Pune | Savitribai Phule Pune University | 2023 - Present | Current SGPA: 8.05

Technical Skills

- Languages: JavaScript, Java
- Frontend: React.js, Redux Toolkit, Tailwind CSS, Bootstrap, HTML5, CSS3, Material UI
- Database: MongoDB, Firebase Firestore, SQL
- Backend: Node.js, Express.js, REST APIs, JWT
- AI & Cloud: Google Gemini API, RapidAPI, Firebase Auth, Cloudinary
- Tools: Git, GitHub, VS Code, Postman, Vercel, Render, Vite
- Currently Learning: Spring Boot, JDBC, Spring, Servlets, DSA

Projects

ResumeMatcher.ai – AI Recruitment Platform | React.js, Node.js, Express.js, MongoDB, Google Gemini API, JWT

- Built a production-grade full-stack AI recruitment platform integrating Google Gemini API for automated resume parsing, candidate-to-job matching, and ATS scoring, reducing manual recruiter screening effort by 70%.
- Engineered a multi-factor ATS scoring engine evaluating resumes across 10+ parameters including skills alignment, experience relevance, and keyword density, improving candidate shortlisting accuracy by 60%.
- Architected end-to-end system solo - MongoDB schema design, RESTful API development, React.js frontend integration, and automated interview scheduling with email notifications.

MessMate – Full-Stack Mess & Canteen Management Platform | React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

- Developed a multi-role SaaS platform (Admin, Owner, Student) using MERN stack to digitize canteen operations, reducing manual billing and attendance effort by 80%.
- Designed and optimized 15+ relational MongoDB schemas with Mongoose; automated background tasks including monthly billing, subscription renewals, and leave approvals using node-cron.
- Secured RESTful APIs with JWT authentication, bcrypt password hashing, and Express rate-limiters, reducing vulnerability to DDoS attacks and unauthorized access by 90%.

Amazon E-Commerce Clone | React.js, Firebase Auth, Firestore, Firebase Hosting, Stripe

- Built and deployed a fully responsive e-commerce web application with product listings, cart management, and secure Firebase Authentication, achieving 100% client-side route protection.
- Implemented real-time persistent cart using Firestore, syncing cart state across sessions with 0ms data loss; integrated Firebase Cloud Functions for backend order processing logic.
- Optimized React component architecture using Context API and useReducer for global state management, improving rendering performance by 35%.

Certifications

- Namaste React - NamasteDev by Akshay Saini
- Namaste JavaScript - NamasteDev by Akshay Saini
- Core Java Course - Core2Web (Advanced OOP, Collections, Multithreading)
- AI Masterclass - Core2Web (Applied AI concepts and real-world use cases)
- Foundation Course on Industry 4.0 - TechSaksham, Microsoft & SAP

Achievements

- Earned LeetCode 50 Days Badge - daily DSA practice in Java; targeting zero-hint problem solving.
- Maintains 30+ GitHub repositories covering full-stack web apps, deployed UI projects, and REST API integrations.
- Active hackathon participant with a strong interest in problem-solving and development.
